

SARA Meeting February 1

Mohawk River Flooding

By Tim Long, W2UI

A year ago, while watching the Mohawk ice from the Stockade Section, Tim met John Garver and Jackie Cockburn, two Geology professors at Union College. They invited him to a colloquium on the Mohawk River Watershed that was to be held at Union. John was eager to obtain the river data that SARA members collected and reported because he had just installed a few gages in the river that had yet to be calibrated. At the colloquium, Tim learned that data SARA members had collected validated his theories and why John had chosen to put the gages in the river where he did. He also found out why the river always seems to flood in the same place. It all started 10,000 years ago. For the rest of the story, come to the SARA meeting.

Tim was first licensed in 1961 and has been a SARA member since 1974. He has served on the SARA board for many years, and has held all the officer positions, all more than once. He is a Broughton Award recipient and has been Field Day Chairman many years, and is currently Treasurer, and Chairman of the Elmer and Antenna Party Committees. In addition to his club roles, Tim is also RACES Radio Officer and Skywarn Emergency Coordinator for Schenectady County

Location: SARA meetings are held in Niskayuna High School in the "Little Theater" Room D-104. Due to construction access is from the rear parking lot, off Nott Street Extension. Turn onto Nott Street Extension from Balltown Road and drive past the shopping mall on the left. The entrance is on the left side of the road and marked.

Cancellations: If Niskayuna High School cancels evening classes and activities the SARA meeting will normally also be cancelled and possibly rescheduled. Listen in on the SARA 147.060 repeater for meeting status information and whether it is to be rescheduled.

Programs: Meeting programs for 2009-2010 have been scheduled in four different areas: General Interest, Operating, Technical, and Emergency Preparedness. While this year's calendar is set, we're always looking for ideas for programs or people who have something they would be willing to present. If you have a suggestion for a program, something you'd like to learn about or speak about, please contact Jim, K2PK (see contact information on the last page).

SARA Committees

Antenna Party Committee: Need help with an antenna? The Antenna Committee is standing by to assist you with talent, knowledge, and a desire to help. Contact Tim Long, W2UI, committee chairman for assistance or to join this committee.

Elmer Committee: Do you have a need to know? Do you have expertise to share? The Elmer Committee matches up those with a need to know and those willing to share their knowledge and experience. If you'd like to take advantage of the knowledge and experience of others, or share your own knowledge as a member of this committee, contact Elmer Committee Chairman Tim Long, W2UI.

SARA Facebook Page

Join the SARA members on the Schenectady Amateur Radio Association Facebook page. To join the SARA Facebook group, navigate to facebook.com, enter "Schenectady Amateur Radio Association" in the Search box, and click on Join Group. Quick and easy!

Editor and Authors Needed for SARA News

Interested in being editor of the SARA News? Please contact any SARA Officer or Director and let them know. The position is available.

There is room in the SARA News for articles and stories of interest to members. If you have a story idea, an article ready for submission, or would like to write for the SARA News, please contact a club officer, director, or the interim editor. We're particularly interested in stories about the club, its members, and their amateur radio related activities.

SARA Dues Reminder

Have you paid your dues yet? The SARA membership year runs from July to June and the 2009-2010 dues are due. Please use the form on the last page or see Tim, W2UI, Treasurer at the meeting.

Nominations should included a candidates name, a brief biography, and reasons why the nominee should receive the award.

SARA News Archive Project

There are some gaps in the SARA News files available on the website, specifically: 2000 – All, 2001 – Mar, Apr, Oct, Nov, Dec, 2002 – Jan, Feb, Mar, Apr, May, Jun, Sep, and 2003 – Mar, Apr, May.

We're looking for past issues of SARA News so that we can complete the online archive. Ideally this would be with electronic files. However, if we can't obtain electronic files, we can scan paper issues to create PDF files. Of course, the better condition the paper issues are, the better the scans will be.

If you have any of the missing issues of SARA News noted above, or any older issues (pre 2000), and would be willing to either loan or donate them for this project, or, if you own or have access to a scanner that can scan to PDFs, and would like to assist with this project, please contact the interim SARA News Editor. Loaned copies will be borrowed when the project is ready and returned as soon as they have been scanned and the file is reviewed.

Contact the Interim SARA News Editor at NT2B@arrl.net or 518-399-4665.

SARA Public Service Events

SARA provides communications support for a number of events throughout the year. If you're interested in participating in any of the PSEs, contact Ken, AA2CW. His contact information is on the last page or see him at a Club meeting.

Coming Events

Contest / Hamfest / Event	Location / Website	Date	Time
SARA Meeting	Niskayuna High School	Feb 1	7:00 PM

SARA Website Changes

Change has come to the SARA website. There are two new Google Calendars on the website; one named SARA-Meetings, on the Home page, and a second named SARA-PSE, on the Public Service Events page. These calendars have been added to facilitate quick access to information as well as easing the burden of updating the website. There are some other changes that may be of interest.

A number of other changes have been made as part of the routine information updating required of any webpage. We're working on a number of other changes to the SARA website. If you notice anything else that needs to be updated or changed, please let Dennis know.

SARA-Meetings Calendar

On the Home page, immediately below the General Meeting announcement, there is now a searchable calendar that displays all SARA meetings and events. This is the SARA-Meetings calendar. All calendar items from the website will be displayed here. Items from the SARA-Meetings calendar are displayed in blue and items from the SARA-PSE calendar are displayed in red.

Navigation In the blue bar at the top of the calendar are a number of features that can be quite helpful. In the upper left-hand corner this calendar is labeled SARA-K2AE.

Date Menu Just below the label is the date of the item currently being displayed. Immediately to the right of the date is a drop-down menu with a gray downward pointing triangle. Moving your cursor anywhere over the date causes the drop-down menu to become active and the background of the triangle will change to white. Click the triangle to open the menu and a calendar will appear allowing you to select the time period you want to review.

Tabs To the right of the date menu are three tabs labeled Week, Month, and Agenda. These tabs (respectively) allow display of the calendar a week at a time, a month at a time, or in a two-row format displaying only days on which meetings and events have been recorded.

Week This displays the days of the week in columns and 24 hours of each day in rows. When the display is set to a week in which the current date falls, the current day is displayed with a light-yellow background (as opposed to the default white background) and the current time is marked with an orange bar. Use the slider control on the right to change the time.

In the row between the data and date and the daily displays is a summary row. If an all-day event is listed for that day an indicator appears in this summary row. To see how this works, take a look at the Field Day entry on June 26-27.

Month Choosing the Month tab displays six weeks at a time. This display is in a two-row format for each week, with the first row displaying the date of each day of each week on a light blue background and the information on a white background. Clicking on an item brings up the details.

Agenda When displaying in the two-row format, the date row is displayed on a light-blue background and the event row on a white background. Clicking anywhere in the event row will bring up a detail summary of the event. Anytime you have meeting or event details displayed, you can access a map, get further details, or download the meeting or event details to your Google Calendar.

Calendar Selection Drop-Down To the right of the tabs is another drop-down menu. The SARA-K2AE calendar (on the home page) displays items listed in both the SARA-K2AE and SARA-Public Service calendars. This drop-down menu allows users to select the calendar items they wish to view. Items may be displayed from the one or both of the calendars. This also allows users to select none as an option (the benefit of which is not yet understood by the author).

SARA-PSE Calendar

A second new calendar on the SARA website, the SARA-Public Service calendar, displayed on the Public Service Events webpage. Items listed in this calendar are displayed both here and in the SARA-Meetings calendar on the Home page.

While the SARA-PSE calendar was originally intended for Public Service Events, current plans are to use it to display other events, such as Winterfest and Field Day, allowing for easy differentiation of events from meetings on the SARA-Meetings calendar. This is expected to allow quicker access to information

Please check it out and let us know what you think. We're open to suggestions.

Winterfest 2010

Members of local clubs and the Capital District Traffic Net will be participating in an amateur radio demonstration at Winterfest 2010, scheduled for February 6, 2009 from 11:00 a.m. to 3:00 p.m. at Indian Meadows Park in the Town of Glenville.

We'll be providing an opportunity for event attendees to learn about amateur radio, see it in operation, get on the air, and to send Radiograms from the event. Again this year we're looking forward to having the C-100 (if available) and viewing the outdoor events from our cozy shack while we get in some operating time.

All amateurs are welcome to participate either at the event or from home. We're looking for operators who would be willing to work some DX and talk about it with visitors. We also need a traffic handler or two to send and receive Radiograms. If you're interested, please contact Jim Stewart, K2PK, Tim Long,, W2UI, or Larry Eaton, NT2B, and let them know. They'll get you involved.
