March, 2013

General Meeting, March 4th, 2013 at 7 PM, Niskayuna High School Little Theatre

## **Grounding**

*Jim Stewart, K2PK*

The March meeting will feature a presentation/talk on station grounding, presented by our President, Jim Stewart, K2PK.

**Please note April's meeting will be on April 8th rather than April 1st due to the schools being closed for spring vacation.**

The SARA meeting will be held Monday, March 4th, 2013 at 7 PM in the Little Theatre of the Niskayuna High School on Balltown Road. Attendees should enter the school through the cafeteria entrance located on the side of the school, adjacent to the Nott Street Extension school parking lot.

**Cancellations:** If Niskayuna High School cancels evening classes and activities the SARA meeting will normally also be cancelled and possibly rescheduled. Listen in on the SARA 147.060 repeater for meeting status information and whether it is to be rescheduled.

## **President's Column**

*Jim K2PK*

Thanks are due Bob Saltzman WA2ARK for his excellent presentation on Internet security at the February SARA meeting. Several people have commented to me on the quality of the talk and Bob's ability to keep the audience engaged throughout. This one ranks among the best in recent years. I can only recall a small number of other presentations that have resulted in so much positive feedback.

While thinking about what we get out of the programs at SARA meetings, it is good to remember that attendance is more than just sitting passively on a soft chair listening to somebody else do the work. The presence of fellow enthusiasts in a common pursuit has a lot of value in our increasingly fragmented society. I for one really enjoy the few minutes after the program when I learn what you are doing and maybe even contribute to the discussion.

There is snow on the ground, but not so much that the mind can't see through to Field Day. SARA needs more participation in Field Day than we have had the past few years. If you haven't taken part, please consider doing so this year. Especially the newer licensees! Field Day is perhaps the best way for the new radio amateur to get a solid advancement in the hobby. It involves getting to know equipment, antennas, operating procedure, not to mention getting to know one another and just plain have fun.

On a different subject, if you can get your hands on a copy of CQ magazine, be sure and read the monthly column "Riley's Ramblings" by Riley Hollingsworth K4ZDH. Riley is retired from the FCC's enforcement activity and has a lot of valuable insights to pass along. Whether newcomer or old timer we can benefit from his wisdom and experience, and enjoy it at the same time. Riley said in a recent column that his view is that with recent changes amateur radio gets more exciting all the time. He has shared times when amateur radio has changed our lives and moved us forward in new ways, and encourages those of us who are older to pass this on to those who are younger. I highly recommend his column.

Finally, I only had one response to my request for you to pass along what was special in your radio activity in 2012. That one involved his final count for the Diamond Challenge DXCC. I'll give it one more month to see if anything comes in.

Spring equinoctial propagation is coming!

### Of Interest to HAMs

Engineer-turned-educator W2XM has developed three versions of "Exam-prep Jepperdee" which can be found on the ARRL website. Each contains questions from the appropriate FCC question pool and can facilitate a fun-filled review when used with W2XM's game hardware (relays, lights, sounder, and push-buttons; all junque-box or flea-market items). The web addresses are

SARA members act as Net Control Stations for the Schenectady County Emergency Net (SCEN) on Sunday afternoons. The nets are open to all amateurs; ARES RACES membership is not required to participate. The purpose of the nets is to train, pass any traffic that you might have and any announcements of general interest.
