A Message from the President

I got an email today asking me to write a letter from the President. I scratched my head for a while and said to myself, "What am I going to write about?" I thought maybe I should write something about myself and share with you about my passion for this hobby. Then I thought I should write something about all the great history of this club and where we wanted to go in the future with it. Truth is, I was not sure what I was going to write about. So, I decided to talk a bit about the time from June till now.

What an amazing summer this has been. It also flew by with a blink of an eye. So here are a few highlights and events that I was involved in. Our June meeting was a great meeting. So many things packed into such a short time. We had the election of officers. We had the presentation of the Broughton Award. (Congratulations again to Tony W2BEJ). If that was not enough, we had a great presentation of RF burns.

Continued on the next page...

Later on in June, we had Field Day. What a great time was had. I had the opportunity of working with so many great people to put that together. Not to mention, the great food we all enjoyed. My favorite part of Field Day this year was actually a little different than any other year. I was walking around with my camera going at 10:00ish on Saturday night. Every station was being operated. All the ops were working hard to make each contact. The GOTA station was pretty busy too. A younger lady was on making her first Amateur Radio contacts and being coached by a person who was really enjoying passing on knowledge to her on the best way to make the contact. There were 5 – 6 groups of people standing around talking and laughing. Having a great time telling stories of Field Days of past or about the newest gear they were thinking of buying. It was truly one of the best Field days I have had the honor in working.

In July, ARES helped with communications for the Mud Run at Maple Ski Ridge. We had ops from SARA, SMARA and ops that had no club affiliation. We had a passing storm and then went on with our day. Everyone was safe and there were no injuries reported...Another great event.

In August, SMARA hosted the “All Clubs Picnic”. I didn’t think that we were going to have that many people attending the event due to the excessive heat and humidity. To my surprise, there were more people attending there than I have seen in years. A great time was had....and the food was good too.

...And here we are now, at the end of another summer, looking forward to the start of another year at SARA. I had a great time in this hobby over the summer and the past year. I look forward to another year with a sense of excitement. I hope that all of you share that excitement with me. Thank you for electing me as your President for 2016 – 2017. I hope that every one of you share the enthusiasm that I have for this hobby and for our club. If there is anything I can do for you, please feel free to contact me. Let us make this year as great, if not better, than the last.

I would also like to add one more thing. I would like to thank my friend and Former President of SARA, Craig Wood, for all the great things he has done for the past couple years not only for SARA, but for Amateur Radio in the area. Thank you Craig...

"Who Invented Morse Code?"

Presented by
Dr. David Hochfelder N2HTA,
 Associate Professor of History, University at Albany

David's talk will cover the historical controversy between supporters of Alfred Vail and Samuel Morse over the issue of which man actually invented the telegraph code commonly known as Morse Code.

Samuel Morse

Alfred Vail

Our Speaker: Dr. David Hochfelder N2HTA

An electrical engineer turned historian, David Hochfelder specializes in the history of U.S. business and technology. He also helps administer UAlbany's public history program.

Before joining UAlbany, Hochfelder served as a research historian at the Thomas Edison Papers.

He is the author of *The Telegraph in America, 1832-1920* (Johns Hopkins University Press, 2012). His next project will be a social history of savings and investment. He has appeared in two episodes of the History Channel's "Modern Marvels" series.

FIELD DAY 2016 Report

Greetings from the FUN Department

It's over! The stuff is almost all put away and waiting for next year. Muscles have stopped aching. I can still hear morse code when I close my eyes. We worked hard. We learned a lot of new things. Man, did we ever have fun! Oh, and the food! The food was gourmet.

Propagation was the pits. Sunspots did not cooperate. The good news is that it was equally terrible for everybody. The antennas worked flawlessly. The beams were assembled correctly according to manufacturer guidelines (What? You mean this isn't always the case?). We actually used lower loss coax for the longer runs and higher frequency antennas and the next best quality coax for the longer runs to lower frequency antennas (not a given practice either). Good matches (SWR's all below 1.5 to 1) and minimal interference between bands and modes. The location lent itself to a good arrangement.

We loved the location...clearly the best location yet and we've already spoken for the Niskayuna Soccer Park for next year. Good elevation, unobstructed views, easy to find, nice working bathrooms, out of the way (quiet) location for the generator, very ample parking,

We operated 6 transmitters simultaneously for 24 hours plus a Get-On-The-Air (GOTA) station. The 6 transmitter main operation used Broughton call sign W2IR and racked up an impressive 1302 QSO's. The band-mode winner was 40M CW with 236 Q's. Next was a tie between 75M and 20M SSB with 197 Q's each. The GOTA station used Broughton call sign K2AE and racked up an impressive 152 QSO's. The GOTA station had 10 different operators including 4 visitors who did not have a license. We provided a GOTA coach and control operator so the visitors had fun operating too. We earned every bonus point possible except for the satellite bonus for a bonus total of 2010 points. We worked every state, most Canadian provinces, and some DX.

The operation wasn't without visits by Murphy. We ran out of gas once, and we all just sat and stared at each other saying, "huh, what just happened?" Thankfully, an alert operator ran from his camper with a 5 gallon can while Fred Thumheart went for a larger supply. We were only out of commission for about 5 minutes. We also forgot to put up 3 antennas! Many sections of coax were found to be bad and we were scraping the bottom of the coax barrel by 2PM Saturday. Several families of mice found their way into the box trailer (the big hole in the floor said "welcome"). Nests and their stinky calling card was everywhere in the Rubbermaid bins.

The ARRL initial submittal is complete. Our claimed score is something like 4,820 points. It will be interesting to see how we stack up. We still owe the ARRL supporting documentation to validate the bonus points that we've claimed. Send me the pictures that you have. We've started a list of ideas and improvements for next year. Send your suggestions.

Lee Hatfield, K2HAT, Amateur of the Year

Hello.

I am so very pleased to announce the 2016 Hudson Division Award recipients. Nominations were received representing the entire Hudson Division. From the southern to the northern part of the Division. From the eastern to the western ends of the Division, all areas were well represented with very worthy individuals who have had an impact on Amateur Radio in the Hudson Division.

This year we've decided to award one "Amateur of the Year" and three "Grand Ol' Ham" awards. The recipients are:

Amateur of the Year	Lee Hatfield K2HAT
Grand Ol' Ham	Andy Bodony K2LE
Grand Ol' Ham	Gordon Shacklett KB2SSZ
Grand Ol' Ham	Joe Dreifuss W2KQ

Please join me in congratulating them, and please celebrate their achievement, by joining them at the 2016 Hudson Division Awards Luncheon.

The Awards Luncheon, sponsored this year by the Orange County Amateur Radio Club (OCARC), will be held on Saturday, November 5, 2016 from noon to 4:00 pm at the Ramada Cafe International in Newburgh, N.Y.

Tickets are \$37.00 per person or a group table of ten seats can be purchased for \$333.00. TICKETS CAN NOW BE PURCHASED THROUGH PAYPAL!!!

Go to the OCARC website: http://www.ocarc-ny.org/HV_awards.shtml

Tickets can also be ordered by mail. Get the order form at: [http:// hudson.arrl.org/2016-ticket-order-form/](http://hudson.arrl.org/2016-ticket-order-form/)

All proceeds this year will be donated to the ARRL Legislative Issues Advocacy Fund. Donations to this fund are used specifically to support the efforts to promote, inform, and advocate to Congress on behalf of Amateur Radio.

Most money is raised by advertising sales. Please consider taking an ad this year in the Awards Journal. The prices are \$30 for a quarter page, \$50 a half page and \$100 a full page. To take an ad, please print out this form and mail it with a check as instructed on the form.

Here is the link: <http://hudson.arrl.org/2016-hudson-division-luncheon-ad-forms/>

The form is available in either a PDF or Word format.

The past 3 years we have raised nearly \$15,000 that has been donated to the ARRL. The money this year will once again be used to help offset expenditures made in support of our HR-1301 advocacy effort.

I hope to see you there.

K2AE Repeaters Guidelines

K2AE Repeaters are open and visitor friendly.

1. There will be a control operator monitoring at all times. If there is no control operator, the repeater will be unavailable. (97.103 and 97.105)
2. Control operators will not discourage anyone from using the repeater.
3. Conduct on the repeaters should be governed by common sense and courtesy. Conversations should be in plain language and suitable for all listeners. (97.112 and .113)
4. No commercial business use is allowed.
5. Pause a few seconds between transmissions. The repeater will recycle. This gives a chance for other users or emergency traffic to call in. (Give even a longer pause in Winter.)
6. If someone calls "Break", operators will yield the frequency for emergency traffic. Yielding to a "breaking" or new station is common courtesy. New York State and Federal law prohibit interference with emergency traffic.
7. Operators are encouraged to use simplex whenever possible. Operators are encouraged to use the minimum power necessary to maintain clear contact, i.e. 50 Watts or more is not appropriate in close proximity to the repeater when 1 or 5 watts achieve full quieting. (97.313)
8. Use of the repeater for non-SARA public service events is prohibited unless permission from the Trustee is obtained. Please forward requests to: ak2e@arrl.net.
9. In the event of an emergency (SKYWARN, flooding, weather conditions or other emergencies) control operators will turn the repeater on if it is down.

SARA NEEDS YOU!

If you have any articles, information, tips, tricks or items for sale you would like to include in the SARA Newsletter, send an email to saranews@k2ae.org with the subject "SARA Newsletter Ideas". Please include your full name and call sign.

Do you know why "*Dues are Gladly Accepted*"?

Because it makes Tim happy!

SARA DUES REMINDER

Have you paid your dues yet? The SARA membership year runs from July to June and the **2016-2017** dues are due. Please use the form on the last page or see Tim, W2UI, our Treasurer at the next meeting.
